

# Start here before starting up

*Are you thinking about starting a business with a coworker? Start here first.*

*It's important that you and your coworkers are all on the same page when starting up together. Consider the following questions before forging ahead with your plans.*

- **Do you share the same business goals? What are they?**

---

---

- **Do you share the same values? List them here.**

---

---

- **Do your routines, habits, and work schedules align?**

---

---

- **Do your skills complement each other? Are there any that don't?**

---

---

- **What's your strategy for resolving conflicts?**

---

---

- **What are your clearly defined responsibilities?**

---

---
